a) Funding estimates incorporate the 2023–24 annual reconciliation adjustments for hospital services and the National Partnership for Priority Groups COVID-19 Testing and Vaccination (which ceased on 31 December 2023).

b) Includes a one-off uplift in funding for the Northern Territory.

National Health Reform funding is linked to growth in public hospital activity, the national efficient price and national efficient cost determined by the Independent Health and Aged Care Pricing Authority. The Australian Government funds up to 45 per cent of the efficient growth in the activity, price and cost of public hospital services, with growth in total Australian Government funding capped at 6.5 per cent a year.

National Health Reform funding estimates are routinely updated to account for reconciliation outcomes, as well as for activity estimates provided by states and the annual national efficient price and cost following determination.

On 5 February 2025, the Commonwealth and states agreed a one-year extension of the 2020–2025 Addendum to the National Health Reform Agreement (NHRA) to provide financial certainty for public hospitals while the Commonwealth and states continue to work together on longer term health and disability reforms. The one-year extension provides states with \$1.8 billion for a one-off funding boost for hospital and related health services through bilateral agreements and a one-off uplift to the Northern Territory.

As negotiations of a multi-year NHRA Addendum to embed the funding changes endorsed by National Cabinet in December 2023 are ongoing, the National Health Reform funding estimates are based on the current 2020–2026 NHRA Addendum. The Commonwealth has provisioned for its expected increase in funding as part of the future multi-year NHRA Addendum in the Budget.

A new measure associated with this item is listed in Table 1.4 and described in more detail in Budget Paper No. 2, *Budget Measures 2025–26*.

a) Final entitlements for National Health Reform include entitlements for the COVID-19 public health response.

In December 2024, the Assistant Minister for Competition, Charities and Treasury determined final entitlements for 2023–24 National Health Reform funding in accordance with advice from the Administrator of the National Health Funding Pool. Reconciliation adjustments have been made to state 2024–25 payment estimates based on the final 2023–24 entitlements.

National Partnership payments for health

A total of \$3.0 billion will be provided to the states in 2025–26 under the following categories:

- health services
- health infrastructure
- First Nations health
- other health payments.

Health services

In 2025–26, the Australian Government is estimated to provide \$2.2 billion to support the delivery of health services in the states.
